

Friday 15<sup>th</sup> July 2016

### Attendance

#### **2015/2016 attendance - 95.5%**

The class with the best attendance this year is Lions class with 96.8%. Well done to all children in Miss Bradley's class! The class who came a very close second were Giraffes class with 96.7%. Well done to all in Mr Rich's class.

Well done to the 16 children who have achieved 100% attendance this school year! They are:

- Cadence Ashall
- Deacon Butler
- Xander Chadwick
- Seanna Corbett
- Freddie Denby
- Layla Holmes
- Lucy Hookway
- Riley Jenkins
- Freya McClenning
- Denni-Rae McFarlane
- Matilda Morgan
- Roberto Petcu
- Charlotte Pinkney
- Luke Poulston
- Lilia-Rose Sharpe
- Molli Turner

This is a fabulous achievement, keep it up!

### Summer Holiday

As you will be aware, school closes for summer today. We have had a very productive year and look forward to continuing in September. The children have spent time in their new classes this week and have enjoyed meeting their new teachers. School reopens to children on Monday 5<sup>th</sup> September. Have a lovely, safe summer.

### School Quad

Over the last 2 terms, Mr Roe, our caretaker has worked tirelessly with children in school to transform our quad area in school. The area now boasts an abundance of beautiful flowers, plants, vegetables and fruit. Well done to everyone who has helped!

### Pleasure Island Trip

On Thursday 14<sup>th</sup> July, West Road took 4 coaches of parents and children to Pleasure Island in Cleethorpes. The day was a huge success and provided a chance for families to spend a fun day together. We received lots of positive feedback after the trip and these are a few of the comments we received:

- We have taken part in every trip for many years. My children have always loved them and so have we. It is a fantastic opportunity and we are very grateful.
- Definitely continue with this trip.
- Other schools I know always say, I wish our school did that.

### Water Safety

Firefighters are urging children not to swim in lakes and reservoirs ahead of the school summer holidays. Safety officers say children and young people should avoid open water- like rivers and lakes- because they may not always be aware of the danger it poses. River flows can be unpredictable and water is often deeper, colder and faster than expected. People should enjoy water safely in swimming pools or safer, specialist facilities instead. Over 400 people die in the water every year in the UK, and firefighters are urging people to follow some basic rules to stay safe.

The dangers of open water are:

- The water can be much deeper than you expect
- Rivers, lakes, canals and reservoirs are much colder than you think
- Open water can carry water borne diseases, like Weils disease
- Cold water dramatically affects your ability to swim
- There may be hidden currents, which can pull you under the water
- You don't know what lies beneath, like pieces of rubbish or reeds which can trap or injure you.
