

Hi, I'm Michele, I'm originally from South Africa and relocated to the UK in 2009.

In 2013 I was fortunate to have a son who is now 11 and is in his last year of Primary school here at West Road Academy.

I have been a stay-at-home Mom since Noah was four years old and have loved having this time with him.

My working back ground has been a little varied, I started off with Reception work then worked in the Hotel Industry back in South Africa for 11 years in the Finance Department, then when I moved over to the UK, I worked for a Private Care Home in Nottingham for 6 years in the Admin Department, doing all Admin rolls.

I love to laugh and have a fun time but I also love being there for people, even if it's just to listen and hear them.

I'm a single Mom, a very proud Mom to one son, he is my life. He has complex needs, ADHD, Autism and Anxiety so at times can be difficult and we are both still adjusting to it all but with the help of Cahms and West Road Academy we are getting there.

I have Epilepsy, which is under control with medication and being assessed for ADHD.

Taking all the above into account, I think with time I would be a great help and support where needed, whether that be with the children, the families or and the school when it comes to the SEN side of things.

I am eager to learn more, I have not worked for many years now, but I am really passionate to get in and help wherever I can
